

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 6
1201 ELM STREET, SUITE 500
DALLAS, TEXAS 75270

October 21, 2021

Mr. Al Alonzi
Division Administrator - Texas
Federal Highway Administration
300 East 8th Street, Suite 826
Austin, Texas 78701

Dear Mr. Alonzi:

The United States Environmental Protection Agency (EPA) has reviewed conformity determination documents for the *Mobility 2045 Metropolitan Transportation Plan (MTP)* and the *FY 2021-2024 Transportation Improvement Program (TIP)*, submitted by the Alamo Area Metropolitan Planning Organization (AAMPO) for interagency consultation and review. A conformity determination is necessary for the San Antonio, Texas 8-hour ozone nonattainment area due to the adoption of the new TIP and modification of the current MTP for plan and TIP consistency, and the need to comply with the Fixing America's Surface Transportation Act signed into law on December 4, 2015.

Any issues associated with the demonstration of conformity were addressed in conference calls and e-mails with the AAMPO, the Federal Highway Administration (FHWA) Texas Division office, the Texas Department of Transportation, the Texas Commission on Environmental Quality, and the EPA. The criteria for our review and the interagency consultation process can be found at 40 CFR Part 93, Subpart A and guidance memoranda issued by the FHWA and the EPA for transportation conformity determinations.

Based on the information submitted to the EPA and discussed during the interagency consultation process, the estimated emissions of nitrogen oxides (NOx) and volatile organic compounds (VOC) for the Mobility 2045 MTP and 2021-2024 TIP will be below the baseline year emissions established for this analysis as per 40 CFR 93.119(b)(2)(ii). We have no further comments and are supportive of a positive conformity finding by the FHWA for the San Antonio area.

I appreciate your cooperation in consulting with us and ensuring all provisions of the transportation conformity rules have been properly addressed. If you have any questions, please feel free to contact me at (214) 665-6454, or Jeff Riley of my staff at (214) 665-8542.

Sincerely yours,

Sherry Fuerst
Acting Chief
Infrastructure and Ozone Section
